#### Fathers Day Stall

During school day

#### Afternoon activities

3:45pm - 5:00pm

### FAMILY MOVIE NIGHT

Friday 30th August

### FOOTY DAY

Friday 20th September

## JUNIOR SCHOOL CLUBS PROGRAM!

Excitement is brewing and it's nearly here! After the success of last term's Clubs Program, we are pleased to share that planning and organisation for this term's Junior School Clubs Program is almost complete, ready for us to start in Week 3! This time we did things a little differently and asked our students to share their thoughts about the kind of clubs they would like to see. We received some fantastic ideas and now the votes are in, with the following learning activities beginning next week:

- Developing our fine and gross motor skills through sports, games and play
- Investigating our amazing senses with science and exploration
- Engaging our inner engineers in building, creating and constructing
- Exploring the world of technology using computers, robotics and coding

Junior Clubs will be running for five consecutive weeks from next Thursday 1st of August during the afternoon session between 2:30pm until 3:30pm. It's great to see that so many of our families have already made the \$5 payment for this term's program, which can be paid through the classroom teacher or via the office. If anyone is in need of a new note or has any questions, please don't hesitate to speak to our Junior School team!

## DIVING INTO HISTORY!

Ever wanted to travel through time? Well our Grade 1/2 students will be doing just that with our new Integrated Studies topic "Time Explorers!" This History based unit will have students investigating the past and learning about significant people and places in our local community. As we begin our journey, we will be looking at our own family history and asking students to create a simple family tree as part of this term's Speaking and Listening Project. Students will prepare a short presentation to describe the people in their family, complete with pictures and photos! Please note that these photos will likely be glued to students work and displayed, and we may not be able to return them in the same condition, so precious photos are best kept at home! More information about this exciting project will be coming home soon - stay tuned!
